3i Infotech Services Business is amongst one of the preferred global business transformation enablers across the globe.

Innovative solutions aligned to Digitalization, with a focus on quick

turnaround of Proof of Concepts (PoCs) & prototyping, along with flexible engagement models and flawless delivery are some of the key strengths of 3i Infotech's Services Team.

Success stories engineered by our Services Business are pivoted on well defined industry verticals, including Banking & Financial Services (BFS), Insurance & Healthcare (IHC), Government and Enterprise, spanning across North America, the Asia Pacific, Middle East, Africa and India.

Over 4500 employees operating across 11 countries, enable customers in the

successful transition towards becoming a purely digital enterprise.

Speaking on the occasion, Mohua Sengupta, EVP & Global Head of Services, 3i Infotech said, "It's exciting to observe the varied disruptions taking place across the industries. Being a truly global company, with our teams spread across the continents, and equipped with innovative solutions in our verticals of choice, 3i Infotech is able to offer agile and smarter solutions to our clients. Nurturing talent, backed by effective business and technology acumen, is what makes 3i Infotech a preferred partner and an employer of choice."

CUSTOMER QUOTE:

"I wanted to take a minute to thank you and your team for their outstanding efforts and results. They have continued to demonstrate strong commitment to our project success and never hesitate to put in extra effort to make that happen. This has included adjusted hours and weekend work to meet key milestones. Recently, we have had to run additional performance testing, sometimes with short notice, and the team always jumps right in to get the needed work completed successfully. The team has demonstrated excellent knowledge of the retail deposit subject area and our processes. This has helped us move quickly and to get much accomplished. I am confident the team will continue to step up wherever needed to get us across the finish line."

Vice President, IT - A Large US Based Financial Group
