3i Infotech inks partnership with OPES Software to transform BFSI industry

The collaboration will address the automated processing requirements of businesses

Bangalore, July 13, 2020: 3i Infotech Limited (BSE: 532628, NSE: 3IINFOTECH), a global Information Technology company, committed to accelerating business transformation, has forged a partnership with OPES Software, a global provider of investment management solutions for the financial services industry. The new partnership will jointly offer complementary software suites, and associated professional services, to banks and financial services institutions worldwide, with an initial focus on the Americas and Caribbean region.

Under the signed partnership agreement, 3i Infotech's banking software solutions, **Kastle™** Universal Banking Suite and **AMLOCK™**, Financial Crime Detection and Management Solution will be offered in tandem with the OPES Wealth Management platform, Unibanx, and the Regulatory Compliance suite, FIRE, from OPES. 3i Infotech has the requisite collaborative solution for OPES clients who are looking for a state-of-the art treasury management, a loan origination software solution, or even those wishing to license a rock-solid Anti-Money Laundering product.

Jatinder Bedi, VP - Africa and the Americas for 3i Infotech said, "With the integration of 3i Infotech's technology-proficient banking software products and the powerful OPES wealth management suite, we will help our clients enhance productivity and gain an edge on their competitors."

"We are delighted with the synergistic opportunity this partnership creates, as it provides banking, wealth management, and compliance software products to meet our customers' wide-ranging business requirements, without the complex implementation and associated costs involved when selecting multiple vendors to address the automated processing requirements of a variety of functional lines of business", added **Bedi**.

Fabrice Zambito, CEO, OPES Software said, "We are pleased to have concluded a global partnership with 3i Infotech, which will leverage our mutual best-of-class and globally successful software solutions addressing the evolving requirements of banking and financial services institutions in all international markets."

"We count on the synergistic and complementary software solutions from OPES and 3i Infotech to benefit the banking and financial services industry worldwide. Our mutual clients will reap the rewards of the software development expertise of both

OPES and 3i Infotech, and from the experience gained across thousands of client installations across the globe" concluded **Mr. Zambito**.
